

ALIAH THAQIFAH

BACHELOR OF COMPUTER SCIENCE (NETWORK SECURITY) WITH HONOURS

UNIVERSITI SULTAN ZAINAL ABIDIN

Address : Terengganu, Malaysia

Phone : 011-23223495

Email : allyqiy03@gmail.com

Linkedin : <https://www.linkedin.com/in/aliah-thaqifah/>

Portfolio : <https://allyqiy03.github.io/E-PORTFOLIO/>

CYBERSECURITY PROFILE

Final-year Network Security student with practical experience in cybersecurity projects involving network traffic analysis, digital forensics, penetration testing, and security assessment. Familiar with tools such as Wireshark, Kali Linux, Burp Suite, Nmap, Autopsy, FTK Imager, Volatility3, Metasploit, WebGoat, and Cisco Packet Tracer. Developed cybersecurity knowledge through academic projects, practical assignments, and certification training, including Cisco, Fortinet, and Mastercard Cybersecurity programs. Seeking a cybersecurity internship to develop real-world experience in SOC analysis, incident response, and digital investigation.

EDUCATION

Bachelor of Computer Science (Network Security) with Honors CGPA:3.56 Oct 2023 - Present
University Sultan Zainal Abidin (UniSZA), Besut Campus

- Developed a strong foundation in cybersecurity principles, system protection, network security, and digital investigation concepts.
- Gained practical experience in security-related tasks such as network traffic analysis, vulnerability assessment, digital forensics, and technical reporting.

Matriculation in Computer Science

Dean's List

July 2021-May 2023

Pahang Matriculation College

- Built a strong foundation in computer science, programming concepts, database fundamentals, and information technology.
- Strengthened basic coding skills through Java programming, problem-solving exercises, and logical thinking tasks.

LEADERSHIP & INVOLVEMENT

- Student Representative Committee (Matriculation)
- ITF Taekwondo Instructor (Sabumnim)
- Residential College Council (UniSZA)
- Academic Executive Secretariat, Faculty of Informatics & Computing Student Association (PMFIK), UniSZA
- Head of Programs and Activities Executive Committee, Student Consumer Movement (GPS), UniSZA

CERTIFICATIONS & CYBERSECURITY TRAINING

- Cisco Networking Academy — Cyber Threat Management Certificate
- Cisco Networking Academy — Ethical Hacking Certificate
- Forge / Mastercard — Cybersecurity Job Simulation Certificate
- Fortinet — Cybersecurity Training Certificate
- Forziq — Computer Networking Certificate

SOFT SKILLS

- **Communication & Teamwork:** Able to collaborate effectively in group projects, present ideas clearly, and support team discussions during academic and leadership activities.
- **Problem Solving & Responsibility:** Able to analyze tasks carefully, manage assigned work, meet deadlines, and make decisions with attention to detail.

TECHNICAL SECURITY TOOLKIT

- **Digital Forensics:** Autopsy, FTK Imager, Volatility3, evidence analysis, disk image investigation, artifact identification.
- **Penetration Testing:** Kali Linux, Burp Suite, Nmap, Metasploit, WebGoat, vulnerability testing, basic exploitation techniques.
- **Network Security:** Wireshark, Cisco Packet Tracer, packet analysis, network traffic monitoring, routing and switching fundamentals.
- **SOC Analysis:** Alert investigation, log analysis, threat identification, incident response concepts, security monitoring.
- **Web Application Security:** HTTP request and response analysis, OWASP Top 10 awareness, basic web vulnerability assessment.
- **Cisco Networking:** Router and switch configuration, VLAN, basic routing, network simulation, troubleshooting using Cisco Packet Tracer.
- **Security Documentation:** Technical reporting, investigation summary, findings documentation, mitigation recommendations.
- **Certification Training:** Cisco Cyber Threat Management, Cisco Ethical Hacking, Fortinet, Mastercard Cybersecurity Job Simulation.

PROJECTS

Digital Forensics Investigation Case Study

- Conducted digital evidence analysis using forensic investigation concepts and tools.
- Used tools such as Autopsy, FTK Imager, and Volatility3 to examine digital artifacts.
- Documented investigation findings, evidence handling process, and final analysis in a structured report.

Penetration Testing Practical Assignment

- Applied penetration testing methodology including reconnaissance, scanning, vulnerability identification, and reporting.
- Used tools such as Kali Linux, Nmap, Metasploit, and Burp Suite during practical security testing.
- Developed hands-on understanding of vulnerability assessment and ethical hacking workflow.

Network Traffic Capture and Analysis using Wireshark

- Captured and analyzed network packets to understand protocol behavior and communication flow.
- Identified important packet details such as source and destination IP addresses, ports, protocols, and traffic patterns.
- Strengthened practical skills in packet analysis, network monitoring, and suspicious traffic identification.

WORK EXPERIENCE

Kafeteori, Kuala Terengganu (Crew & Barista)

September, 2023 – Present

- Worked as a crew and barista in a fast-paced customer service environment.
- Managed orders, beverage preparation, cashier tasks, cleanliness, and daily operational support.
- Strengthened communication, teamwork, multitasking, responsibility, and time management skills.
